

# IMPLEMENTING ABS FRAME BY THE NAGOYA PROTOCOL: NOVOZYMES A/S APPROACHES/MEASURES

What guide us:

- Novozymes A/S Respect and strives to be in compliance with the Convention on Biological Diversity and the Nagoya protocol.
- Novozymes A/S – Needs a clear overview for bioprospecting condition for commercial utilization of GR before starting development.

Measures:

- Strain Collection: Data is registered and traceable with respect to country of origin, sampling date and contracts if any.
- ABS contracts is dealt with as any other contracts
- Internal Product developing gating system includes CBD/Nagoya protocol compliance check for commercial utilization.
  - Currently we expect the EU template for declaration at the stage of final product development to be the foundation for our internal guidelines for insuring the needed documentation for CBD/Nagoya protocol compliance.
