Link to the AU Guidelines:

10 Benefit sharing AU Member States should, as appropriate, include provisions in their domestic legislative, administrative or policy measures to clarify ownership of GR and aTK, in order to provide legal certainty and ensure fair and equitable sharing of benefits arising from their utilization.

When **negotiating benefit sharing arrangements**, provisions should be made in MATs about how various costs will be covered.

Link to the AU Guidelines:

10 [...] When developing community protocols or procedures, ILCs may wish to reflect on how they will be dealing with sharing of benefits deriving from the utilization of aTK shared by neighbouring or other communities, in the same country and elsewhere.

AU Member States shall support the creation of a GMBSM to address the fair and equitable sharing of benefits derived from the utilization of genetic resources and traditional knowledge associated with genetic resources that occur in transboundary situations or for which it is not possible to grant or obtain prior informed consent.

Countries making examples available:

- Malawi
- Seychelles
- Kenya
- Cameroon
- Ethiopia
- South Africa
- Kew (UK)

Basic principles

- A contract is an agreement between two or more parties that creates an obligation on all parties to perform (or not perform) a particular action or set of related actions.
- Contract law determines what makes a particular contract enforceable, and provides remedies when a contract is breached.
- Contract law is highly diverse between countries
- If you don't follow contract law (in a careful and legal manner), a contract will/may not be enforceable when you want it to be, and may be enforceable when you don't want it to be.

Different legal tools

- Memorandum of understanding
- Prior informed consent
- Two-step mutually agreed terms
- Contracts that are enforceable in the user country meeting contract law requirements

Rules for drafting contracts:

1	Why is Awareness of Contract Law Important in ABS?		
2	Develop a Commercial Plan for the Contractual Relationship		
3	Avoid Ambiguity		
4	Rules for Drafting Successful Access and Benefit Contracts		
	4.1	Make Sure You Contract with the Right Parties	
	4.2	Be Specific and Concrete Regarding All Substantive Obligations and Processes	
	4.3	Manage and Address Major Risks	
	4.4	Know the Possibilities and Limitations of Contract Law	
	4.5	Expect the Best; Plan for the Worst	
	4.6	Protect Contractual Rights/Expectations	
	4.7	Avoid Mistaken Legal Assumptions	
5	Using Models and Standards		
6	Lessons for ABS Contracts, Drawn From Contract Law and Practice		

3. GENETIC RESOURCES TO BE ACCESSED

3.1 The User shall have access to **Oreochromiskarongae** locally known as Chambo hereinafter referred to as the "genetic resource" in the family **Cichlidae** and order perciformes.

3. GENETIC RESOURCES TO BE ACCESSED

3.1 The User shall have access to **Oreochromiskarongae** locally known as Chambo hereinafter referred to as the "genetic resource" in the family **Cichlidae** and order perciformes.

"Genetic Material" means any material of plant, animal, microbial or other origin containing functional units of heredity

"Genetic Resources" to genetic material of actual or potential value, in this case fish and finclips

5. RIGHTS AND OBLIGATIONS OF THE USER

- 5.1 The User is entitled to administrative support and guidance to facilitate the acquisition of the necessary permits required by the National Competent Authority
- 5.2 The User shall use the Genetic Resource or derivatives generated in the research for <u>non-commercial purposes</u>. In the event that there is commercialization, the user <u>should enter into a new MAT with the Provider</u>.
- 5.3. The User shall take all reasonable precautions to prevent the Genetic Resource coming into the possession of any unauthorized person.

5. RIGHTS AND OBLIGATIONS OF THE USER

- 5.4. The User shall provide geo-references of all locations where the samples shall be collected.
- 5.5. The User shall inform the Provider about <u>any unforeseen</u> research results that are of potential commercial interest, prior to any disclosure of this information to the public.

Seychelles:

- 2.0 Use of materials
- 2.1 This material will be used solely for scientific research.
- 2.2 Any information generated by research on the material will be made available unsolicited and free of charge to the Department of Environment
- 2.3 The Recipient shall not publish any new information without the approval of the Department of Environment.

Ethiopia: material transfer agreement:

4. Utilization of Material

- 1. The Researcher shall utilize the material for said research program only.
- 2. The Researcher <u>cannot use the material for commercial</u> <u>purpose</u> nor can it <u>obtain any intellectual property right</u> on the material.
- 3. The Researcher retains the material for the period of the research in ----- (destination country) whereupon it shall return any remaining unused material to the Provider.

- 4.3 The **User** shall not use Aloedebrana genetic/biological resource for any other purposes whatsoever unless an explicitly written permit is given by the **Provider**.
- 4.4 The **User** shall not transfer the Aloe*debrana* genetic/biological resource to third parties the Access permit or the rights and obligations there under without obtaining explicit written consent from the **Provider** to that effect.

4.11The **User** shall neither claim any rights over, nor make commercial benefit out of such community knowledge unless an explicitly written permit is given to it by the **Provider.**

The great challenge:

How to turn this into a written language definition:

- Clear
- Enforceable
- Understandable

Avoid Ambiguity:

- Unspecific terms leaves the interpretation of the meaning of the contract to national judges
- If you cannot be more specific in your drafting, how can you expect a judge later to understand your contract better than its drafters?
- On this point there is a need in **shifting paradigm** in ABS to make contracts work otherwise there will be a whole generation of ABS contracts being signed that will end up as unenforceable.

Be Specific and Concrete Regarding All Substantive Obligations and Processes:

Content of a benefit-sharing clause:

- Definition of the material
- Manners of its utilisation that are legal under the contract
- Stipulate exact manner in which benefit sharing obligations will be discharged
- Definition of what acts are not allowed
- Clear stipulation of consequences of breaches

The overall virtue

- Remove uncertainties
- Describe what you foresee happening in the clearest language (ever) step-by-step till the expected scenario has been ended
- Make it possible for a non-biologist, lawyer judge to understand all steps and their consequences

Rules for drafting contracts:

1	Why is Awareness of Contract Law Important in ABS?		
2	Develop a Commercial Plan for the Contractual Relationship		
3	Avoid Ambiguity		
4	Rules for Drafting Successful Access and Benefit Contracts		
	4.1	Make Sure You Contract with the Right Parties	
	4.2	Be Specific and Concrete Regarding All Substantive Obligations and Processes	
	4.3	Manage and Address Major Risks	
	4.4	Know the Possibilities and Limitations of Contract Law	
	4.5	Expect the Best; Plan for the Worst	
	4.6	Protect Contractual Rights/Expectations	
	4.7	Avoid Mistaken Legal Assumptions	
5	Using Models and Standards		
6	Lessons for ABS Contracts, Drawn From Contract Law and Practice		

Benefit sharing in a scoping agreement

2.4 Benefit sharing under the ABS Agreement during Actualization Phase shall be based on each party's contribution, fairness and mutual consensus.

Questions:

- Based on each contribution relative contribution.
 - Danger: low value to natural resources, high value to research
- 'mutual consensus' what happens if they do not agree?

Seychelles:

3.0 Technology Transfer

3.1 Seychelles may participate in such research projects if it so desires. Any transfer of information relating to this material should be subjected to the approval of the Supplier.

MoU Kenya:

- ARTICLE 8: BENEFIT SHARING
- Benefits resulting from utilization of biological resources by all partners will be <u>used in accordance with</u> the CBD and Nagoya Protocol and in line with the country's constitution 2010 and the domestic legislations such as Wildlife Conservation and Management Act 2013 and EMCA 2015.
- Partners shall take inventory of all potential and derived benefits guided by the IP audit reports and develop agreeable benefit sharing plan.

MoU Kenya:

- ARTICLE 8: BENEFIT SHARING
- [...]
- Benefits shall include both monetary and non-monetary on the R&D value chain, which will include both academic and commercial steps. These benefits will be shared in accordance with the <u>benefit sharing plan</u> in the Annex V and utilized as stipulated in Nagoya protocol Article 9,
- The benefit sharing plan <u>shall consider</u> the communities living adjacent to the project sites and their indigenous knowledge.

Benefit sharing clause

4.1 Calculation of Benefits and payment

THE COMPANY will make payment to the ILC of an amount of three percent (3%) of the net sales (as per THE COMPANY's accounting standards) of the Products by THE COMPANY, whether in [one specific country] or abroad. The payments will be calculated bi-annually (every six months) by THE COMPANY and paid to the Trust fund managed by MINISTRY within two months after the end of each six month period.

Example agreement

4.1 Calculation of Benefits and payment

THE COMPANY will make payment to the **ILC** of an amount of three percent (3%) of the net sales (as per **THE COMPANY**'s accounting standards) of the Products by **THE COMPANY**, whether in [one specific country] or abroad. The payments will be calculated bi-annually (every six months) by **THE COMPANY** and paid to the Trust fund managed by MINISTRY within two months after the end of each six month period.

- three percent (3%)
- net sales, after all and every cost the Company might relate
- as per the Company's accounting standards [themselves?]
- the Products which products the coffee machine or only this particular cappucino?
- which branch of the company
- whether in one country or abroad Will this national branch sell anything abroad?

6.6 The user shall contribute funding to the conservation efforts in areas where samples shall be collected. A total of US\$ 1,500 shall be paid and deposited into research fund at Fisheries Research Station. The funds shall further be issued to local institution in the areas for any fish conservation intervention by communities.

6.4 If TK associated with the Genetic Resource is involved, the User shall acknowledge the source of the TK and share any arising benefits with the TK holders. The research results published or presented orally will include full acknowledgement of the source of the Genetic Resources and the TK

SA BSA NCK:

4. THE SHARING OF BENEFITS

4.1 Plant variety: This agreement covers the plant species Agathosma betulina and Agathosma crenulata, commonly known as Buchu, Aspalanthus linearis commonly known as Rooibos and Hoodia Gordonii commonly known as Hoodia. If _____ extend their products to any other plant varieties, it will approach the San and Khoi in order to amend this agreement.

SA BSA NCK:

4. THE SHARING OF BENEFITS

- 4.2 Calculation of benefits: The payment of the financial benefit or 'benefit share' is calculated on the basis of a percentage of the full amount received by _____ in respect of product sales revenue.
- 4.3 Payments: _____ will make bi-annual (every six months) payments to the Bioprospecting Trust fund managed by Department of Environment Affairs of the combined "benefit share."

8. Benefit sharing

The **User** has agreed to share the following benefits that arise out of the utilization of genetic/biological resource:

- 8.1 The **User** agrees to pay to the **Provider** a <u>yearly amount</u> of xxx amount of Ethiopian Birr per year.
- 8.2 The mode of payment will be effective at the first month of each agreement year.
- 8.3 The years for the purpose of this agreement begins from the date of the entry in to force of this agreement.

8. Benefit sharing

The **User** has agreed to share the following benefits that arise out of the utilization of genetic/biological resource:

- 8.4The **User** shall give the community priority to supply the raw materials of Aloe*debrana*genetic/biological resource required for the production of Aloe oil/gel.
- 8.5 The **User** shall have the obligation to <u>provide equipment</u> and technological support to the communities for the proper collection and harvesting of Aloe*debrana* genetic/biological resource.

8. Benefit sharing

The **User** has agreed to share the following benefits that arise out of the utilization of genetic/biological resource:

- 8.6 The **User** shall include Ethiopian scientists/researchers involved in the research undertaken. The kind of research on which Ethiopian scientists/researchers will participate and the mode of participation shall be specified by written mutual agreements of the parties.
- 8.7 The **User** shall share with the **Provider** the results of research it will undertake on the genetic/biological resource. Accordingly, the **User** shall share with the **Provider** the knowledge or technologies it may generate using Aloe*debrana* genetic/biological resource.

8. Benefit sharing

The **User** has agreed to share the following benefits that arise out of the utilization of genetic/biological resource:

8.8 The **User** shall give training for the concerned institutions and local communities to enhance skills in genetic/biological resource conservation, development, propagation and sustainable use of Aloe*debrana* genetic/biological resource.

South Africa:

6.1 As consideration for the KNOWLEDGE conveyed to the USER by the PROVIDER, the PARTIES hereby agree that, should commercially viable PRODUCT(S) be developed by the USER as a result of it use of the KNOWLEDGE, the PROVIDER shall be entitled to, for the duration of the ROYALTY PERIDOE, share in the FINANCIAL BENEFITS in the form of ROYALTIES [...]

Cameroon:

Article 3: Duration of the MAT

- (1) The present MAT are agreed upon for a duration of three (3) years, renewable by agreement of the parties on site or off site.
- (4) With respect to the sharing of monetary benefits during the commercialization phase,
 - To guarantee the purchase of the dried roots at the price of 2700 FCFA per kilo, to be paid by bank transfer according to the amounts specified in article 6 and onto the accounts specified in annex 1;
 - To define jointly with the Local Community at the beginning of each year the quantity of the dried roots requested;

Cameroon:

4 [...]

- To pay 25% of the benefits before taxes associated with the selling of products arising from the utilization of genetic material of the plant Echinops giganteus by bank account to the Local Community specified in annex 1;
- To ensure transparency in the sharing of monetary benefits resulting from commercialization of the genetic resources.

Be Specific and Concrete Regarding All Substantive Obligations and Processes:

Content of a benefit-sharing clause:

- Definition of the material
- Manners of its utilisation that are legal under the contract
- Stipulate exact manner in which benefit sharing obligations will be discharged
- Definition of what acts are not allowed
- Clear stipulation of consequences of breaches

Benefit-sharing calculation principles:

- Relative contribution?
- What if the GR was taken out of the scenario?
- The low value of nature as a problem
- How to calculate? Net or gross?

Building a lab:

- Identify the vision for bio-innovation
- Identify your needs
- Which institutional structure exists?
- What can each bio-prospector contribute with?
- Development aid contribution?

Griffith University and Eskites as 'best practices'

Bhutan

A second great challenge:

Exact manners to stipulates the sharing-obligations

- Concrete
- Well defined and externally verifiable trigger points
 - Calculable
 - Legal certain for both parties
 - Enforceable

How to draft benefit-sharing obligations:

- Clear and defined trigger-points
- What shall be shared?
- When?
- How to calculate?
- What happens if/ when something goes wrong?

Rules for drafting contracts:

1	Why is Awareness of Contract Law Important in ABS?		
2	Develop a Commercial Plan for the Contractual Relationship		
3	Avoid Ambiguity		
4	Rules for Drafting Successful Access and Benefit Contracts		
	4.1	Make Sure You Contract with the Right Parties	
	4.2	Be Specific and Concrete Regarding All Substantive Obligations and Processes	
	4.3	Manage and Address Major Risks	
	4.4	Know the Possibilities and Limitations of Contract Law	
	4.5	Expect the Best; Plan for the Worst	
	4.6	Protect Contractual Rights/Expectations	
	4.7	Avoid Mistaken Legal Assumptions	
5	Using Models and Standards		
6	Lessons for ABS Contracts, Drawn From Contract Law and Practice		

Seychelles:

1.0 Ownership

1.1 The Recipient hereby agrees not to claim ownership over the material, nor to seek Intellectual Property Rights (IPR's) over that material in the form received. The recipient also agrees not to seek IPRs over related information received.

Cameroon:

(5) With respect to intellectual property rights,

- Not to hold any rights to intellectual property on the genetic material of *Echinops* giganteus;
- To only sell products deriving from the roots of *Echinops giganteus* as agreed with the Local Community. Any other new product must be negotiated in a new agreement with the Local Community according to the laws and regulations in force in Cameroon

8.0 INTELLECTUAL PROPERTY RIGHTS

8.1. If the user seeks to benefit from any <u>economic</u> <u>utilization</u> of the transferred <u>genetic resources</u>, research results or product developed using the transferred genetic resource the user shall seek prior informed consent from the provider with details regarding the anticipated potential benefit and shall re-negotiate the material transfer agreement in accordance with Article 5.2.

8.0 INTELLECTUAL PROPERTY RIGHTS

- 8.2 In the event that the user has requested for a change in utilization of the genetic resource from non-commercial to commercial under article 8.1 the <u>user shall not seek any</u> intellectual property rights over the research results or any products <u>developed using the transferred genetic resource</u> without prior written agreement between the user and provider regarding the following:
- 8.2.1 Ownership of any intellectual property rights.
- 8.2.2 Terms for licensing intellectual property rights to third parties
- 8.2.3 Terms guaranteeing the equitable share or distribution of the benefits.

8.3 Any utilization or use of the transferred genetic resources for proprietary purposes by the user without any prior consent from provider or that is inconsistent with any prior agreement shall be deemed to be in breach of the conditions of this agreement and the provider shall be entitled to the equitable share of any monetary benefits derived from the unauthorized utilization or use.

The equitable share of any monetary benefits derived from unauthorized utilization of the genetic resources shall be (Or an agreed percentage)..... percent of the revenue from sales and/ or royalty payments of the product, research results or any other technology developed from the accessed genetic resources based on a financial report provided by the user within 14 days upon request by the provider (provided that nothing in this article shall be construed as to prevent the provider from negotiating an agreeable amount or determining the appropriate percentage based on information from other reliable sources).

MoU Kenya:

ARTICLE 6: INTELLECTUAL PROPERTY RIGHTS AND PROTECTION

- l. [...].
- II. The Project Partners will undertake IP audit before, during and towards the end of the project to show the baseline and progress of existing and generated intellectual property. All generated and potential IP will be recorded in special note books and all parties to the IP generated will sign specific IP agreements as per the SOP.
- III. All partner institutions will submit their IP policy to the Project Management Office and harmonized appropriately under this MoU.

MoU Kenya:

ARTICLE 6: INTELLECTUAL PROPERTY RIGHTS AND PROTECTION

- IV. The accessed biological resources **shall remain the property** of the Kenyan Government and all voucher specimen duplicates s will be deposited in Kenyan designated repositories and other agreed repositories as per established standards in conformity with Nagoya protocol instruments of PIC, MAT and MTA.
- VIII. **Transfer** of generated IP rights by partner **to new ownership** will be subject to authorization by the provider and consultations by all partners under this MoU.

Ethiopia: contract

5. Intellectual property ownership right

- 5.1. The **User** shall neither claim nor obtain intellectual property rights over Aloe *debrana*genetic/biological resource or any parts thereof and associated community knowledge.
- 5.2. The **User** shall acknowledge and declare Ethiopia as a geographic origin of Aloe*debrana* genetic/biological resource for the product developed therefrom.
- 5.3. Any joint inventions made by Parties based on Aloe*debrana* genetic/biological resource or parts thereof shall be jointly owned by the Parties.

Prior Informed Consent AGREEMENT:

20 academic visits to THE USER COUNTRY for Kenyan professionals will be supported for exchange programs in institutions in THE USER COUNTRY under xxx and other fellowships. The Academic Exchange Programs will be undertaken to THE USER COUNTRY by the Kenyans spread across the five years as outlined in the project proposal (Year 1, 4 visits; year 2, 5 visits, Year 3, 4 visits, Year 4, 5 visits and year 5, 2 visits). ONE INSTITUTION will have 8 and ONE INSTITUTION 6 of these visits.

The link to IPRs - patents:

- Apply for a patent together? Common recognition as inventors
- A patent is an object for property can be transferred
- Prohibit patenting?
- Encourage patenting?
- How to ensure a part
- Relative values?

Be Specific and Concrete Regarding All Substantive Obligations and Processes: Formulate in most concrete manner possible:

- (i) the resources accessed and its location (genetic resources and/or ATK),
- (ii) the user's rights and expectations,
- (iii) the provider's rights and expectations,
- (iv) the user's obligations,
- (v) the provider's obligations and
- (vi) the overall contract objective.

The text of the contract must convey exactly what is included and what the parties have agreed to do, with the highest possible level of clarity and detail.

Lessons for ABS Contracts, Drawn From Contract Law and Practice

Rules for drafting contracts:

There is a need in **shifting paradigm** in ABS to make contracts work otherwise there will be a whole generation of ABS contracts being signed that will end up as unenforceable.

(copy-past is not useful)

LESSONS IOFADO CONTRACIS, DIAWIT FIONI CONTRACT LAW AND FIACUCE

Seychelles:

- 4.0 Change of Use and Commercialization of the Material
- 4.1. If the recipient seeks to commercialize the material, or its progeny, or any derivatives or parts thereof, prior informed consent must first be obtained from the Supplier. Any such commercialization will be subjected to a separate agreement

Seychelles:

5.0 Transfer to Third Party

- 5.1 The recipient shall not make available any samples of the materials to any subsequent person and or institution without prior written permission from the Supplier.
- 5.2 The Supplier reserves the right to have a new material transfer agreement signed or to negotiate any other agreement as it may see fit.

Ethiopia: material transfer agreement:

5. Other Obligations

- 1. The Researcher shall not transfer the material to any third party whosoever without first notifying to and securing explicit written agreement of the Provider.
- 2. Any third party that obtains the material from the Researcher in the absence of permission from the Provider shall not have any right whatsoever over the material and its components.

Ethiopia: contract

6. Transfer to third parties

The **User** shall not transfer Aloe*debrana* genetic/biological resource or any component of it to the third parties for any purpose without first obtaining explicit written consent from the **Provider.**

South Africa:

8. THIRD PARTY TRANSFER

The RECIPIENT/PERMIT APPLICANT undertakes not to transfer the indigenous genetic and biological resources to a Third Party, without the written authorization of the ACCESS PROVIDER; and then only under a legally binding written agreement with the ACCESS PROVIDER based on this Agreement.

Rules for drafting contracts:

1	Why is Awareness of Contract Law Important in ABS?		
2	Develop a Commercial Plan for the Contractual Relationship		
3	Avoid Ambiguity		
4	Rules for Drafting Successful Access and Benefit Contracts		
	4.1	Make Sure You Contract with the Right Parties	
	4.2	Be Specific and Concrete Regarding All Substantive Obligations and Processes

	4.4	Know the Possibilities and Limitations of Contract Law	
	4.5	Expect the Best; Plan for the Worst	
	4.6	Protect Contractual Rights/Expectations	
	4.7	Avoid Mistaken Legal Assumptions	
5	Using Models and Standards		
6	Lessons for ABS Contracts, Drawn From Contract Law and Practice		

South Africa:

11. BREACH AND TERMINATION

11. If a party to this agreement ("the breaching party") breaches any material provision of this agreement, the other party ("the aggrieved Party") shall be entitled to deliver to the breaching party a written notice requiring the breaching party to rectify that breach within 30 days of receipt. If the breaching party remains in breach of such provision within 30 days after receipt of the notice, the aggrieved party shall be entitled (without derogating from any of its other rights or remedies under this agreement or at law)

South Africa:

11. BREACH AND TERMINATION

- 11.1 To sue for immediate specific performance of any of the defaulting party's obligations under this agreement, whether or not such obligation is then due, or
- 11.2 To cancel this agreement, in which case written notice of the cancellation shall be given to the defaulting Party, provided that the remedy of specific performance or damages would not adequately prevent the aggrieved party from being prejudiced.

9.0. SETTLEMENT OF DISPUTES

- 9.1 Any dispute arising from this Agreement shall be resolved in the following manner:
- 9.1.1 Amicable dispute settlement: The parties shall attempt in good faith to resolve the dispute by negotiation.
- 9.1.2 Mediation: If the dispute is not resolved by negotiation, the parties may choose mediation through a neutral third party mediator, to be mutually agreed.
- 9.1.3 Arbitration: If the dispute has not been settled by negotiation or mediation, any party may submit the dispute for arbitration under the Arbitration Rules of an international body as agreed by the parties to the dispute. Failing such agreement, the dispute shall be finally settled and the result of such arbitration shall be binding.

10.0. GOVERNING LAW

This Agreement is governed by and shall be construed in accordance with the laws of Malawi and Germany.

Ethiopia: material transfer agreement:

5. Other Obligations

- 3. The Researcher shall notify the Provider the progress of its research through periodic research report.
- 4. The Researcher shall at the end of the research present to the Provider the hard and electronic copy of the research results.
- 5. Any benefit that accrues from the use of this material shall be subject to the relevant existing and future national and international laws.

South Africa:

7. REVIEW OF AGREEMENT

This agreement will be reviewed every _____ (fill in agreed timeframe), with a view to amending the agreement if necessary.

One month prior to every review, the permit holder must disclose any new material information with regard to the biotrade / bioprospecting to all stakeholders to enable stakeholders to participate in the review from an informed basis.

Thank you for your attention

implemented by

A case study – the teff contract:

- Teff varieties send from Ethiopia to the Netherlands
- The purpose/ rational was twofold:
 - Making a new plant variety for being grown in Europe
 - Develop the market in Europe for Ethiopian grown teff
- Common ground of understanding
 - Make a long term relationship or get some quick benefits?

The subject in the teff case:

4 The scope of access

- 4.1 The Provider agrees that the Company accesses and uses the genetic resources of Teff specified in Annex 1 to this agreement.
- 4.2 Under this **agreement**, the **Company** is permitted to use the genetic resources of Teff only for the purpose of developing non-traditional Teff based food and beverage products that are listed in Annex 3 to this **agreement**.
- 4.3 The Company cannot use Teff for any other purposes (e.g. chemical, pharmaceutical etc.) whatsoever unless explicit written consent is given by the **Provider**.
- 4.4 The **Provider** shall not grant to other parties access to Teff genetic resources for the purpose of producing the products of the **Company** listed in Annex 3 of this **agreement** unless it secures the consent of the **Company**.
- 4.5 The Company is not permitted to access the traditional knowledge of Ethiopian communities on the conservation, cultivation and use of Teff. Therefore, the Company shall not claim any rights over, nor make commercial benefit out of, such traditional knowledge unless explicit written agreement is given to it by the Provider.
- 4.6 To avoid possible confusion between the traditional knowledge of Ethiopian local communities and inventions made by the **Company**, the **Provider** shall, upon submission by the **Company** of its research proposals, inform the **Company** of the

The subject in the teff case:

4 The scope of access

- 4.1 The Provider agrees that the Company accesses and uses the genetic resources of Teff specified in Annex 1 to this agreement.
- 4.2 Under this **agreement**, the **Company** is permitted to use the genetic resources of Teff only for the purpose of developing non-traditional Teff based food and beverage products that are listed in Annex 3 to this **agreement**.
- 4.3 The Company cannot use Teff for any other purposes (e.g. chemical, pharmaceutical etc.) whatsoever unless explicit written consent is given by the **Provider**.
- 4.4 The **Provider** shall not grant to other parties access to Teff genetic resources for the purpose of producing the products of the **Company** listed in Annex 3 of this **agreement** unless it secures the consent of the **Company**.
- 4.5 The Company is not permitted to access the traditional knowledge of Ethiopian communities on the conservation, cultivation and use of Teff. Therefore, the Company shall not claim any rights over, nor make commercial benefit out of, such traditional knowledge unless explicit written agreement is given to it by the Provider.
- 4.6 To avoid possible confusion between the traditional knowledge of Ethiopian local communities and inventions made by the Company, the Provider shall, upon submission by the Company of its research proposals, inform the Company of the

Relationship to IPRs:

5 Intellectual property ownership

- 5.1 The **Company** shall neither claim nor obtain intellectual property rights over the genetic resources of Teff or over any component of the genetic resources. However, plant variety protection may be obtained over Teff varieties.
- 5.2 The plant variety protection rights over new Teff varieties the Company will develop shall be co-owned by the Company and EARO. Such varieties shall be used by EARO and the Company in such a way as not to damage the business interests of the Company in so far as the products listed in Annex 3 or the interests of EARO or the Provider are concerned.
- 5.3 The Teff varieties that are not developed by the Company shall be owned by the Provider on behalf of the Teff farming local communities of Ethiopia. If it is found to be in the interest of the Provider or the Company, such varieties may be registered in the name of EARO. The Company shall handle and cover the cost of such registration outside of Ethiopia, provided that it has the finances in the given budget year.

Relationship to IPRs:

5 Intellectual property ownership

- The Company shall neither claim nor obtain intellectual property rights over the genetic resources of Teff or over any component of the genetic resources. However, plant variety protection may be obtained over Teff varieties.
- 5.2 The plant variety protection rights over new Teff varieties the Company will develop shall be co-owned by the Company and EARO. Such varieties shall be used by EARO and the Company in such a way as not to damage the business interests of the Company in so far as the products listed in Annex 3 or the interests of EARO or the Provider are concerned.
- Provider on behalf of the Teff farming local communities of Ethiopia. If it is found to be in the interest of the Provider or the Company, such varieties may be registered in the name of EARO. The Company shall handle and cover the cost of such registration outside of Ethiopia, provided that it has the finances in the given budget year.

Selection of claims in the teff patent

Claims

- **1.** A flour of a grain belonging to the genus Eragrostis, preferably Eragrostis tef, **characterized in that** the falling number of the grain at the moment of grinding is at least 250, preferably at least 300, more preferably at least 340, most preferably at least 380.
- **2.** A flour according to claim 1, **characterized in that** the grain has after-ripened.
- **3.** A flour according to claim 2, **characterized in that** the falling number of the grain at the moment of grinding is at least 1.01 times higher than at the moment of harvesting the grain, preferably at least 1.05, more preferably at least 1.20 and still more preferably at least 1.30 times higher.

Selection of claims in the teff patent

Claims
